MaketPles ENB

Seller guide — selling on MaketPles ENB

Keep this with your phone. For businesses on the site.

Sign in at	**market-remix.lesleywaninara.workers.dev/seller**
My login (mobile number)	_____
Temporary password (first time only)	_____
Division contact	_____

1. Signing in

On your phone	Open **market-remix.lesleywaninara.workers.dev/seller** and add it to your home screen, so it is one tap away.
Login	The mobile number you applied with, for example 7XXX XXXX.
First time	Type the temporary password the Division gave you, then choose your own: at least 8 characters. Do not share it, not even with the Division.
Forgotten it?	Phone the Division or your district commerce office for a new temporary password.

2. When an order comes in

Most orders are **pay when you collect**: the buyer pays you the price on the order, in cash or by mobile money, when they pick it up. No fee is taken from these orders.

1	**You get a message**	The Division sends you an SMS or WhatsApp: the order number, the buyer's name and phone, and what they want. It is also under **Orders** when you sign in.
2	**Phone the buyer**	Agree when they will come. Then press **Confirm order**.
3	**Get it ready**	When it is packed and waiting, press **Mark ready**.
4	**They collect and pay**	Check the money, hand it over, then press **Collected and paid**. Only press it once you have been paid.
5	**They don't come**	Phone them first. If the order is off, or you cannot supply it, press **Cancel**.

An order marked **Paid — prepare it** was paid through the Division: prepare it, mark it ready, then collected. The Division pays you for these later, into the bank account under **My business**.

3. Keeping your shop right

Price or stock changed	**My products** → **Edit** → change it → **Save changes**. Keep prices the same as at your stall.
Sold out	Set **How many do you have?** to 0, or press **Stop selling**.
Something new	**+ Add a product**: the name with its size, the price, what the price is for (each, per kg, per bundle), how many you have, and 2–3 photos. Then **Send for review**. The Division checks it, usually within 2 working days.
Sent back to you	**My products** shows **Needs changes** with the Division's note. Press **Fix**, make the change, then **Send for review** again.
Photos	Daylight, plain background, the item filling the photo. See the photo guide.
Your details	Keep your phone numbers right under **My business**, or orders can't reach you.

4. Bookings and quotes

Guest houses, tours, transport, building and similar services get **requests**, not orders. Open **Requests**, phone the buyer within 2 days, agree the price and how they pay, then mark it **Contacted** and later **Done**.

5. The rules

Not allowed	Alcohol and home brew · tobacco and buai · medicines · petrol, diesel and gas · wildlife · weapons · fake or copied goods · services that need a licence you don't hold.
Collect only	Live poultry and kerosene (in sealed containers) can be sold, but only for the buyer to collect from you. The site will not let them be delivered.
Fresh food	Collected, or delivered only within your own district.
Be fair	Sell only what your listing shows, at its price. If something is wrong with an order, sort it out with the buyer; the Division will help if you can't agree.

6. What your orders say

New — confirm it	A buyer has ordered and will pay you on collection. Phone them, then **Confirm order**.
Preparing	You confirmed it. Press **Mark ready** when it is packed.
Ready for collection	Waiting for the buyer. Press **Collected and paid** once they have paid you.
Collected and paid	Done. It stays in your list as a record.
Paid — prepare it	Paid through the Division. Prepare it; the Division pays you later.

7. Your first week

- ☐ Sign in and choose your own password.
- ☐ Open **My products**: check every price, what it is for, and how many you have.
- ☐ Add the Division's number to your phone, so you know its messages are real.
- ☐ Add two or three more products, with good photos.
- ☐ Check your phone numbers under **My business**.

8. Selling more

Be quick	Phone buyers the same day. A fast answer turns into the next order.
Share your stall	Your stall page is on the site under **Our SMEs**. Send its link to customers on WhatsApp or Facebook so they can order from you any time.
Keep it true	Right prices, right stock, real photos. If you run out, set it to 0 straight away.
Ask the Division	To feature your business on the home page, or for help with photos or a product.
